The Journal of Systems and Software

Volume 40, Number 1, January 1998

Contents

Editor's Corner
Yet Another Date Crisis—Y2K is Only the Beginning 1
Robert L. Glass

A Contingency Based Approach to Requirements Elicitation and Systems Development 3
Frank Land

Closing the Gap: Women Education and Information Technology Courses in Australia 7
Annemieke Craig, Julie Fisher, Angela Scollary, and Mohini Singh

Application of the Pointer State Subgraph to Static Program Slicing 17
David W. Binkley and James R. Lyle

Applying a New Decomposition Method to Verify Communication Protocols 29
R. Lai and X. Li

The RHODOS Migration Facility 51
Damien De Paoli and Andrzej Goscinski

Software Quality Assurance: An Analytical Survey and Research Prioritization 67
Arun Rai, Haidong Song, and Marvin Troutt

Solutions in Action
Normalization on the Fly 85
Ido Millet

Biographies 89

Volume 40, Number 2, February 1998

Contents

Editor's Corner
How Long Do Information Systems Last? 91
Robert L. Glass

On Estimating the Number of Defects Remaining in Software 93
Kai-Yuan Cai

(continued)

How Long Do Information Systems Last? 91
Robert L. Glass

On Estimating the Number of Defects Remaining in Software 93
Kai-Yuan Cai

(continued)

A Promising Approach to Two-Person Software Review in Educational Environment 115
Shinji Kusumoto, Atsushi Chimura, Tohru Kikuno, Ken-ichi Matsumoto, and Yukio Mohri

Algorithms for Reliability-Oriented Module Allocation in Distributed Computing Systems 125
P. Ajith Tom and C. Siva Ram Murthy

Using PVM to Develop a Distributed Object-Oriented Language for Heterogeneous Processing 139
Agostino Poggi and Giulio Destri

An Object Oriented Approach to Simulating Large Communication Networks 151
Armin R. Mikler, Johnny S. K. Wong, and Vasant Honavar

On Measuring the Complexity of an Estelle Specification 165
S. J. Huang and R. Lai

Controversy Corner
From IT Application to Organizational Transformation 183
Frank Land

Biographies 185

Volume 40, Number 3, March 1998

Special Issue on Formal Methods Technology Transfer

Contents

Guest Editor's Corner
Research Directions in Formal Methods Technology Transfer 187
Hossein Saiedian

Invited Papers

Formal Methods and Traditional Engineering 191
Michael Jackson

"Formal Methods" Technology Transfer Will Fail 195
David Lorge Parnas

Refereed Papers

Formal Methods for Verification and Validation of Partial Specifications: A Case Study 199
Steve Easterbrook and John Callahan

Industrial Integration of Graphical and Formal Specifications 211
Jim Armstrong

Application of Formal Verification and Behaviour Abstraction to the Service Interaction Problem in Intelligent Networks 227
Ulrich Nitsche

(continued)

Specification-based Testing of Reactive Software: A Case Study in Technology Transfer 249
Lalita Jategaonkar Jagadeesan, Adam Porter, Carlos Puchol, J. Christopher Ramming, and Lawrence G. Votta

Formal Methods and Requirements Engineering: Challenges and Synergies 263
Sara Jones, David Till, and Ann M. Wrightson

Specifications Are Necessarily Informal or: Some More Myths of Formal Methods 275
Baudouin Le Charlier and Pierre Flener

Biographies 297

Volume Contents 300
